

2010 LECTURE PROGRAMME

TIME	LECTURE TOPIC	PRESENTED BY
------	---------------	--------------

FRIDAY 15th OCTOBER

11.00am	Building a radio controlled flash steam model boat	Phil Abbott
12.00pm	Design and construction of copper boilers	Nigel Thompson
1.00pm	Important aspects of clock design and construction	BHI Members
2.00pm	Construction methods utilising laser cut parts:-the latest techniques employing this versatile technology	Malcolm High
3.00pm	Getting started with CNC software	Tony McKenzie
4.00pm	Theory and practice of running a small foundry for model engineers	Noel Shelley

SATURDAY 16th OCTOBER

11.00am	Silver soldering made easy - understand why you do, what you do to produce strong leak-free joints	Keith Hale
12.00pm	Injectors	Derek Brown
1.00pm	The development of the mild pop safety valve	Gordon Smith
2.00pm	Design and construction of GWR tenders for 5" and 7 ¹ / ₄ " gauge	David Aitken & Prof. Pete Thomas
3.00pm	Getting started with CNC software	Tony McKenzie
4.00pm	Making the equipment and running the foundry – The practicalities of making your own castings	Noel Shelley

SUNDAY 17th OCTOBER

11.00am	Building a radio controlled flash steam model boat	Phil Abbott
12.00pm	CAD design of a locomotive	Derek Brown
1.00pm	The construction of an early LNWR tender in 5" gauge	Chris Rayward
2.00pm	Construction methods utilising laser cut parts:-the latest techniques employing this versatile technology	Malcolm High
3.00pm	Theory and practice of running a small foundry for Model Engineers	Noel Shelley
4.00pm	Making the equipment and running the foundry – The practicalities of making your own castings	Noel Shelley

MONDAY 18th OCTOBER

11.00am	Silver soldering made easy - understand why you do, what you do to produce strong leak-free joints	Keith Hale
12.00pm	Design and construction of GWR tenders for 5" and 7 ¹ / ₄ " gauge	David Aitken & Prof. Pete Thomas
1.00pm	The construction of an early LNWR tender in 5" gauge	Chris Rayward
2.00pm	Design and construction of copper boilers	Nigel Thompson
3.00pm	Theory and practice of running a small foundry for model engineers	Noel Shelley
4.00pm	Making the equipment and running the foundry – The practicalities of making your own castings	Noel Shelley

TUESDAY 19th OCTOBER

11.00am	Building a radio controlled flash steam model boat	Phil Abbott
12.00pm	Injectors	Derek Brown
2.00pm	PRESENTATION OF AWARDS
