## One Of The UK's Leading Marine Modelling Exhibitions

Welcome to the 20th International Model Boat Show. Created in 1998 the show is now one of the UK's leading marine modelling exhibitions and the only 3 day exhibition dedicated to all aspects of marine modelling.

As you go around the exhibition you will see many specialist marine modelling suppliers offering a vast range of kits, hulls and accessories. Whatever you need for your project you are sure to find it here. Make sure you visit them all to see their full range of products on offer. This year we also have a new feature - The Tamiya Truckin display arena.

Visitors can enjoy the excellent and varied displays of models, from early warships to modern power boats and ships, which are complimented by action on the boating pool. The Surface Warship Association will again lead a poignant tribute during the 2 minutes silence on Remembrance Day and for younger visitors, don't miss 'children's time' at the poolside at 11.40am-12.00pm and 2.00pm-2.40pm on Saturday and Sunday.

There will again be a special display stand with some fabulous boats in Steve's Top Models.

Our thanks to all of our exhibitors in making this what I hope you will agree is yet another hugely interesting and successful International Model Boat Show.

We trust you will enjoy your visit and make sure you visit the mezzanine restaurant for breakfast, lunch or afternoon tea - whilst watching the boating action!
